WHAT WE DO

We create spaces, objects and experiences that connect brands with people

- ◇ Art Installations
- ◇ Festivals & Events
- ◇ Brand Experiences
- ◇ Retail & Window Displays
- ◇ Exhibition Design
- ◇ Custom Art Objects

LIGHT INSTALLATIONS

ART OBJECTS & STAGE DESIGN

◇ ART OBJECTS

Interactive installations that transform space through light, form and audience interaction

◇ STAGE DESIGN

Lighting structures for concerts, festivals and performances. Futuristic aesthetics, dynamic compositions and maximum visual impact

◇ CUSTOM SOLUTIONS

Custom lighting concepts designed and produced for events, brands and public spaces

LIGHT INSTALLATIONS

ART OBJECTS & STAGE DESIGN

◇ ART OBJECTS

Immersive art installations designed to engage audiences and transform event environments

◇ STAGE DESIGN

Custom lighting environments for festivals, performances and large-scale events, designed to enhance atmosphere and audience engagement

◇ CUSTOM SOLUTIONS

Custom-built installations adapted to the scale, environment and identity of each event

KYIV ART WEEK

VISUAL CONCEPT AND EXHIBITION DESIGN

Development of the architectural and visual concept for the exhibition space. Creation of a cohesive exhibition system with a strong focus on navigation, visitor interaction, and contemporary aesthetics

◇ EXHIBITION STRUCTURES

The metal exhibition structures were designed as a modular system, creating a flexible environment for artworks, informational displays, and visitor engagement throughout the event

MODULARITY
FLEXIBLE SPACE

SEASONAL SPACE DECORATION FOR YOUR BUSINESS

Full-service decoration for offices and commercial spaces — turnkey solutions based on ready-made seasonal concepts (Halloween, New Year, and other key seasonal events)

We create a visual brand environment that enhances first impressions, increases employee engagement, and turns your space into a powerful tool for communication and brand positioning

STOREFRONT INSTALLATIONS

SEASONAL WINDOW DISPLAY DESIGN

A storefront evolves with the season—and so does the story it tells.

For GARA, we created two distinct window display concepts, each reflecting a different mood while preserving the brand's bold visual identity.

The Halloween concept introduced oversized sculptural elements and playful surrealism, creating a memorable street presence. The holiday concept transformed the window into a festive scene with luxurious lighting, rich velvet textures and vibrant gift compositions, bringing warmth and celebration to the space.

DESIGN FOR A CREATIVE COWORKING SPACE

FUTURA HUB

A workspace should inspire as much as the people inside it

For FUTURA HUB, we developed a bold visual identity that combines custom furniture, artistic installations, neon lighting, sculptural elements and graphic accents into one cohesive environment

Every detail was designed to make the space memorable, functional and full of character — creating an atmosphere where creativity feels natural

FESTIVAL DECORATION

A large-scale festival installation created to interact with light, landscape and movement throughout the day.

Geometric structures, suspended spheres and integrated lighting transformed the space from sunset into night, becoming part of the festival experience and the visual identity of the event

BRAND EVENTS ARE ABOUT MORE THAN VISIBILT

They create a connection between people and the brand.

For this project, we helped transform an industrial venue into an immersive Nissan experience created around the UEFA Champions League Final.

From large-scale branded structures to guest interaction zones, every element was designed to support the atmosphere and strengthen the brand presence
